

"We're Big on People"

Certified to 800 lbs.

Bariatric Lift Maxi Care

Certified to 800 lbs.

The Maxi Care Bariatric Lift was designed and built with the safety of the patient and caregiver in mind.

The Maxi Care Bariatric Lift is fully electric and the swivel and lower functions dramatically reduce the risk of caregiver injury when transferring a patient. The stability of the base with legs open and fully extended ensures a safe patient transfer.
