

PMI® Avatar Contour Harness Personal Gear | Harnesses

This lightweight, full-body version of the PMI® Avatar Rescue Harness is designed for those who only need front waist and sternum attachment points. It avoids the weight and bulk of heavier harnesses that have additional attachment buckles.

Key Features

- Waist and sternal attachments
- Ergonomic padding
- Fully adjustable rear leg risers and chest harness
- Non-removable chest harness
- Adjusts to fit 31"-52" waists
- Storage bag included
