

SMC Compact U Rack Hardware | Braking Devices

SMC's Compact U Rack has many advantages over other small U racks beyond SMC's quality manufacturing. The ingenious design prevents the bars from sliding around the bottom of the rack. The standard rack width allows it to be rigged on two ropes. The upper and lower tie off bars provide a greater variability of friction and secure tie off.

Key Features

- Stainless steel body and bars
- Compact Size
- Can be rigged with 2 ropes
- Two opposed tie off bars

Additional Information

Shipping weight | 1.7 lbs
