### FEATURES/SPECIFICATIONS

**Body Mass Index (BMI) Calculator:** Calculates body mass index in seconds in two easy-to-use modes. Standard mode, used in most situations, simply follow the instructions on the console to input height and display BMI. Assistant mode allows a fitness trainer or health professional to enter a person's height before weighing, eliminating any need to access the keypad while the client is standing on the scale

**Unique MotionLock Technology:** Incredibly accurate measurements even for unsteady users

**High Capacity Tare:** Resets scale to zero, even with weight on platform (i.e. mother-child function)

**Push Button Calibration:** Set calibration via keypad entry without the need of tools

**Programmable Set Up:** Tailor the console for your specific needs including auto-off time, audible beep, lb. or kg. lockout, and more

**Lightweight and Easy to Carry:** Built-in handle and recessed storage cavity securely holds the readout during storage and extended transport

**Weight Measurements:** In pounds or kilograms
