

PMI® Tower-Tek Rescue Solution Solutions and Kits | Solutions

PMI®'s Tower-Tek Rescue Solution is a tried and true, “plug-and-play” rescue solution designed and built to meet the demanding rescue needs of tower workers. Whether you need to perform self-rescue, tower-based coworker rescue, ground based coworker rescue or a pickoff rescue, the Tower-Tek gets the job done. Using ANSI compliant components, the Tower-Tek stresses a common sense approach to the complicated problem of tower rescue. As with any life safety or rescue equipment, proper training and documented refresher training on the PMI Tower-Tek Rescue Solution is strongly recommended. Kit includes:

- 1 — 11 mm PMI® Extreme Pro Rope (25m or 100m or 122m)
- 1 — 1m PMI® Wire Rope Sling
- 1 - Hightec Hurricane Alloy rope grab w/pulley
- 1 - Climbing Technologies “SPARROW” 200R BLK. Descender
- 1 - 2” SMC/RA Stainless Steel Pulley
- 1 - Casualty Attachment Sling
- 5 - SMC FP Lite Alloy Carabiners
- 1 - Pair of Rescue Shears
- 1 - Carrying Bag
