

TerrAdaptor™ Gin Pole Kit Hardware | Anchorage Connectors

The Gin Pole or Monopod is the TerrAdaptor's lightest high anchor configuration. A properly rigged gin pole/monopod can support several thousand pounds while remaining a lightweight, single leg assembly. The Gin Pole is also ideal for close quarters where there is not enough room for multi-leg configurations.

Key Features

- 2 Lash Ring with Coupling Pins
 - Leg kit complete with Ball Foot, Hobble Plate & Basket
 - TerrAdaptor™ User Guide
-

Additional Information

Shipping weight | 23.4 lbs
