

Elevating Arm Support with LSII Cover

Re-Order #	Description	Size	Units
905030	Elevating Arm Support - Foam Only	20"L x 6"W x 5.5" Max Height	Each
905031	Elevating Arm Support with LSII Cover	20"L x 6"W x 5.5" Max Height	Each

Purpose

This soft arm support provides a trough for resting the arm in a comfortable and stable position. Fits either the left or right arm and can be placed on any leveled surface such as a table, bed or one of Skil-Care's wheelchair arm trays.

- Recessed cavity
- Can be used to reduce upper extremity edema
- Can be used as a phlebotomy wedge during blood draws.
- It is available in a foam only or with a low shear water resistant outer cover that is easily cleaned with disinfectant wipes or sprays.
- Product dimensions: 20"L x 6"W x 5.5" Max Height

Easy to Use

Place the armrest positioner on any leveled surface or wheelchair arm tray and assure the arm is centered.

Easy Care

The LSII cover can be cleaned with either soap and water, liquid disinfectant or approved disinfecting wipes.
