

#### INSTRUCTIONS:

Nuprodx bath/commode chairs and slider systems are known for their ability to fit in cramped spaces others simply can't. While we have yet to find a bathroom we can't accommodate, a few simple measurements will insure the best fit of your chair. Follow the descriptions below, and enter the measurements. Round up or down to ½-inch increments, and use the decimal system (for example, 10.5 for 10 and one-half inches). If you have any questions, please call and let us help you, because that's what we do!

- A** Overall length of bathtub
- B** Length of bathtub floor
- C** Width of bathtub floor (flat portion only—do not include any rounded area)
- D** Overall width of bathtub
- E** Distance between edge of toilet bowl and bathtub
- F** Widest portion of toilet bowl (including “wedge” shape up to face of tank)
- G** Distance between edge of toilet bowl and closest object/wall
- H** Distance from front edge of toilet bowl to closest object/wall
- J** **\*When the toilet is NOT next to the tub:** Distance from the center of the bathtub to the edge of the outside bathtub ledge
- K** Distance from center of toilet bowl to center of bathtub drain/spout
- L** Distance from top edge of bathtub to floor of bathtub
- M** Distance from top edge of bathtub to bathroom floor
- N** Distance from top of toilet bowl to bathroom floor (with seat and lid in raised position)

Width of the doorway
